Re: Docket 99P-0033/CP 1

Dear Ms. Henney:

The FDA must act immediately on the Humane Farming Association petition to put an end to the practice of feeding dead pigs, horses and other animals to other farm animals.

Obviously, cows are NOT carnivores and shouldn't be fed dead animals. The danger of Mad Cow Disease should be equally obvious.

Is it that the FDA feels that the US is somehow immune? This arrogant, dangerous position will only end in disaster for American consumers who still eat meat.

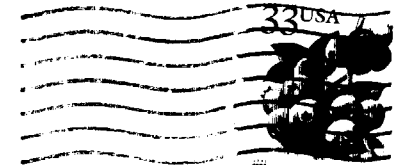

Sincerely,

Susan and Hubert van Wyck
